Ingredients or production methods used by our suppliers may change, or there may be product differences among regional suppliers. Additionally, normal kitchen operations involve shared cooking and preparation areas, or we may need to substitute ingredients in menu items. We are therefore unable to guarantee that any menu item is free from gluten or any other allergen. Please inform us of any and all food allergies before placing your order. A 2,000-calorie daily diet is used as the basis for general nutrition advice; however, individual calorie needs may vary for adults and children and for varying age, gender, and fitness level. Beyond Juicery + Eatery defines a vegetarian diet as one that excludes animal meats like poultry, beef, and other animals but may include eggs, dairy, fish, honey, and foods with animal by-products. Additionally, normal kitchen operations and vendor production methods may present cross-contact opportunities for otherwise vegetarian ingredients.

A 2,000-calorie daily diet is used as the basis for general nutrition advice; however, individual calorie needs may vary for adults and children and for varying age, gender, and fitness level. Beyond Juicery + Eatery defines a vegetarian diet as one that excludes animal meats like poultry, beef, and other animals but may include eggs, dairy, fish, honey, and foods with animal by-products. Additionally, normal kitchen operations and vendor production methods may present cross-contact opportunities for otherwise vegetarian ingredients.
